

A Web3 Cloud Computing Platform

The Market

DePIN

Market Size

Nearly \$9 billion

Projected to reach by 2028

\$35 trillion

Source: Messari

AI

Market Size

Nearly \$200 billion

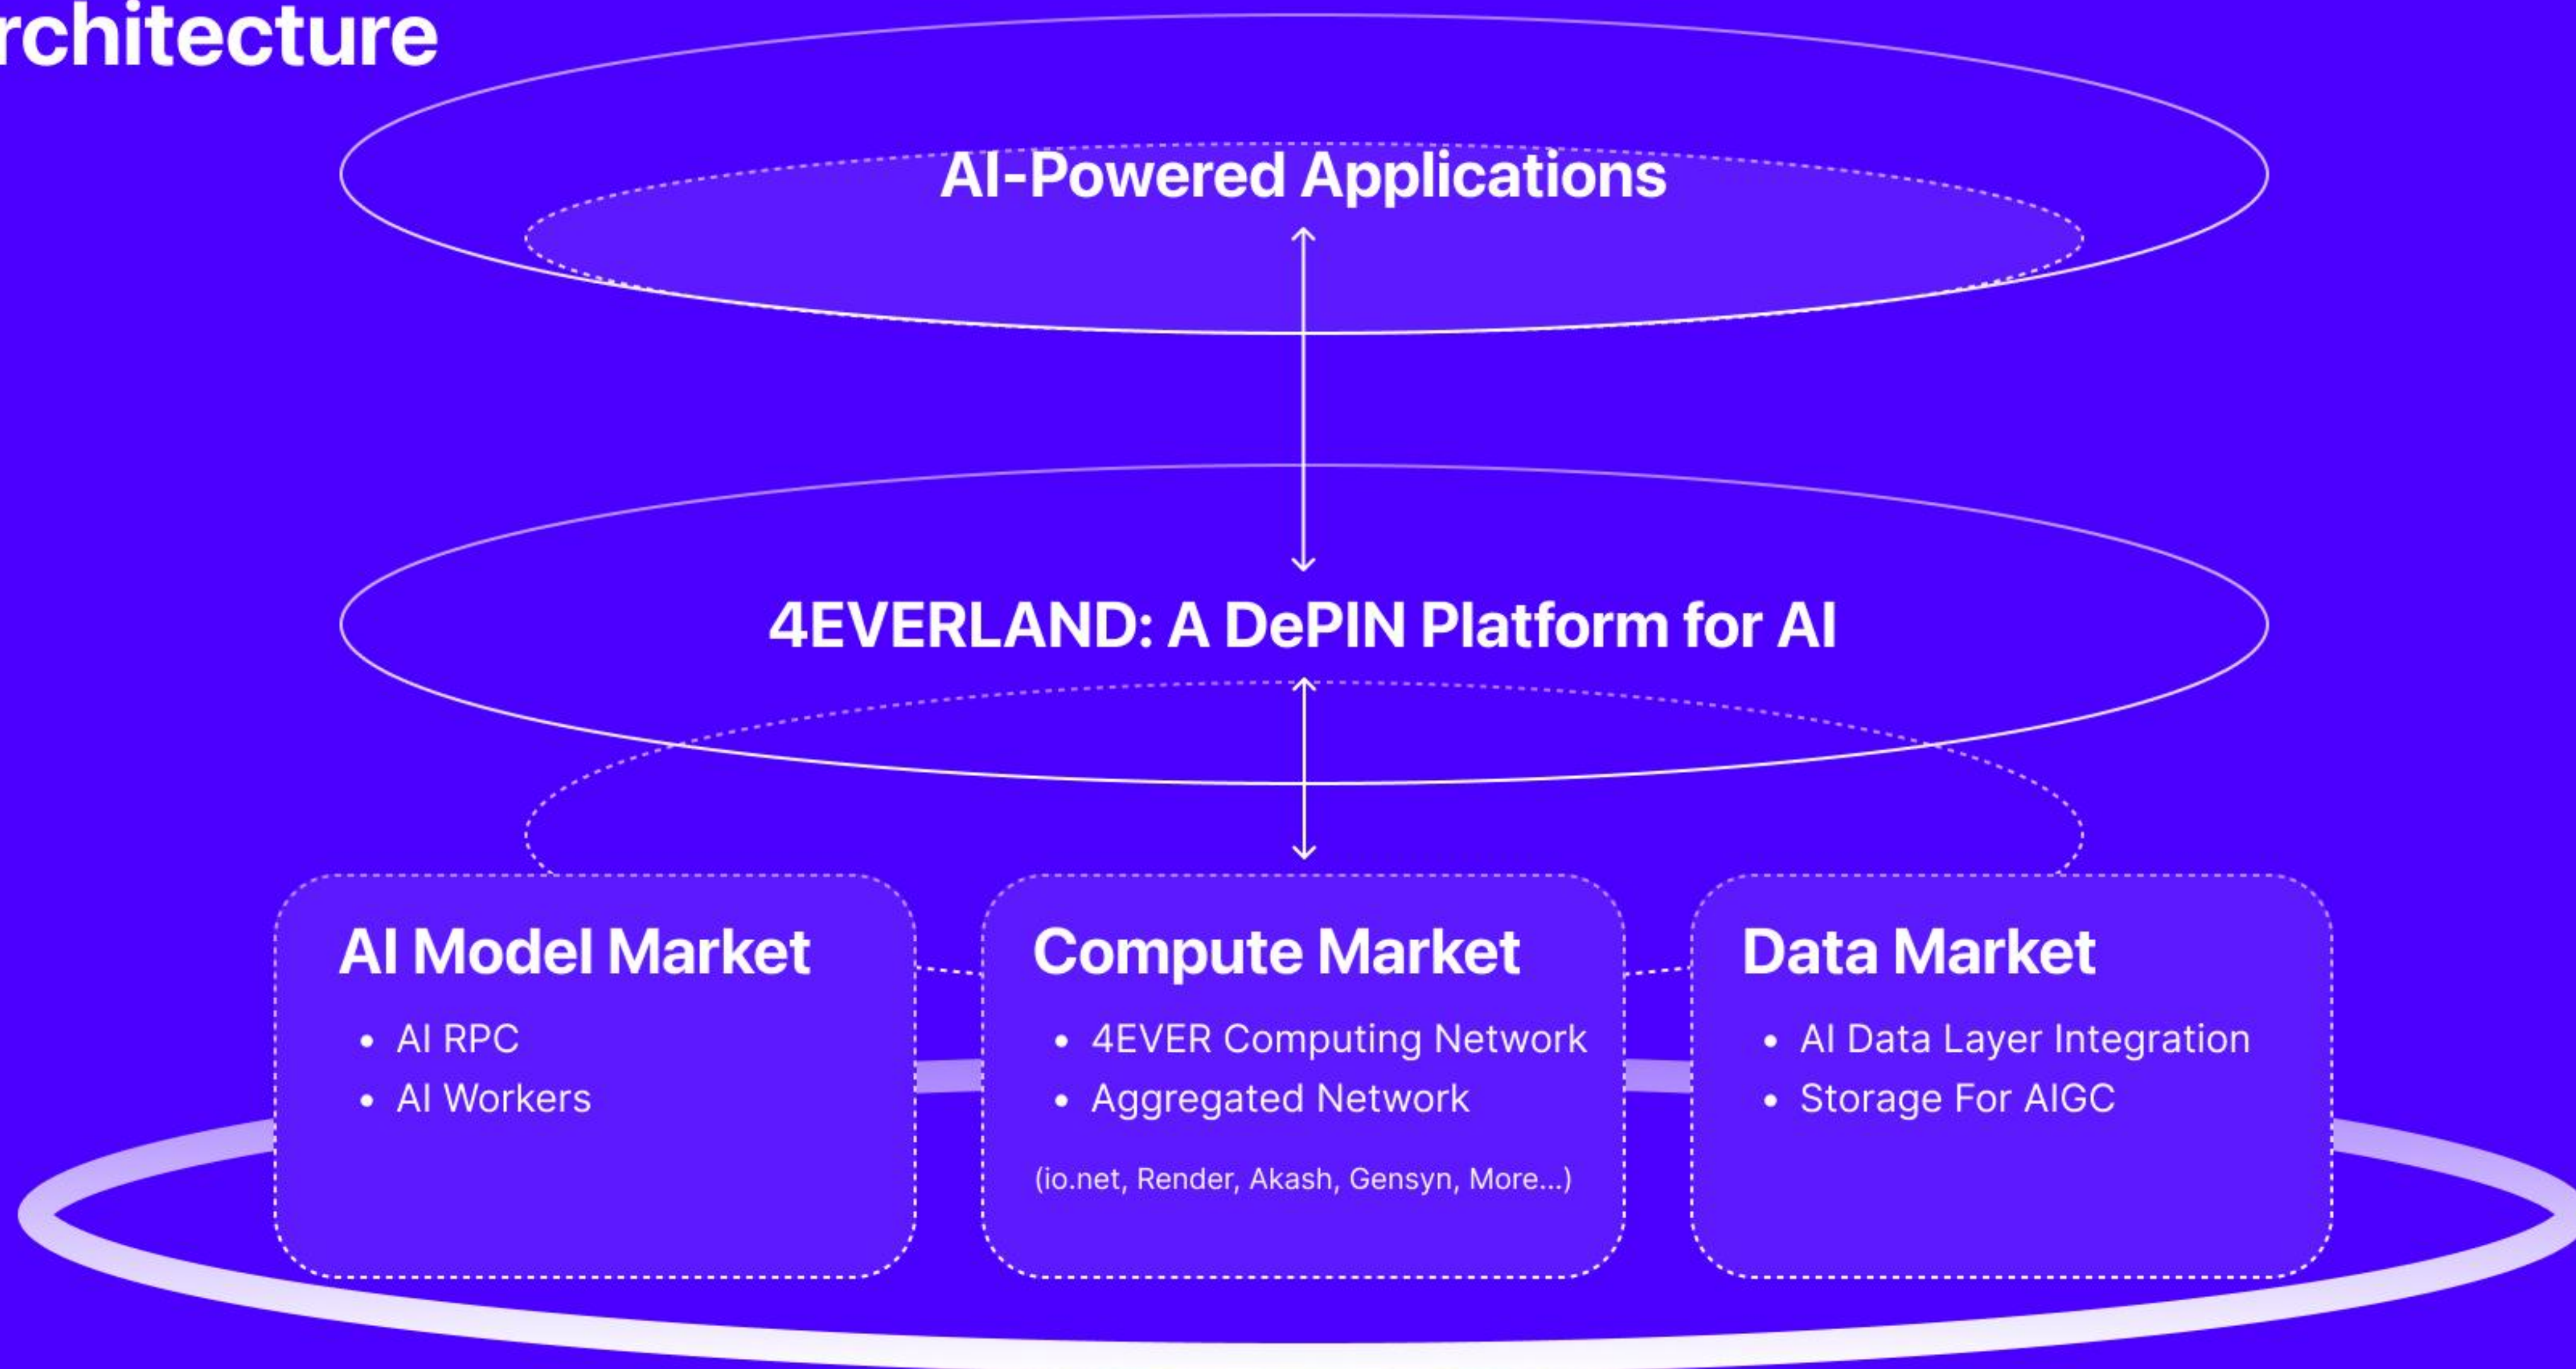

Projected to reach by 2030

\$20 trillion

Source: Next Move Strategy Consulting

- **Underutilization:** Despite the DePIN industry's \$9 billion market size, **over 95%** of integrated idle resources remain **unused**.
- **Ineffective Leverage:** While the AI market requires substantial computational power, it struggles to **effectively leverage DePIN capabilities**.
- **Ecosystem Isolation:** **Inconsistent** DePIN protocol standards result in ecosystem isolation and a user-unfriendly experience, with **significant entry barriers**.

Achieved second place in the BNBChain Incubator

Epic news! 🏆

We're thrilled to announce the selected projects for the BNB Chain Zero2Hero Incubator.

This five-week program provides resources, mentorship, and networking

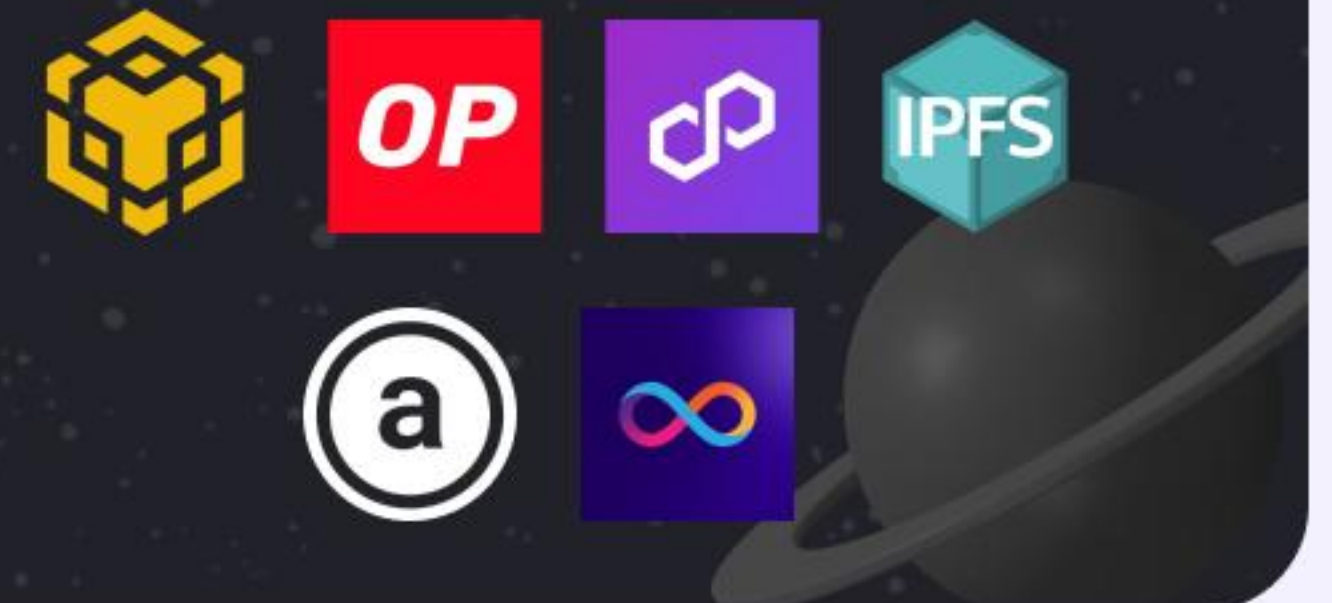

Top 3 data contributor in **Arweave** and **BNB Greenfield**

 **BNB Greenfield**
Storage Provider & Validator

Featured Twice in Messari DePIN Map in Storage & Computing sector
